Disclaimer

Dappd.net reports are not, nor should be considered, an endorsement or disapproval of any particular project or team. These reports are not, nor should be considered, an indication of the economics or value of any product or asset created by any team. Dappd.net does not cover testing or auditing the integration with external contract or services (such as Unicrypt, Uniswap, PancakeSwap etc'...)

Dappd.net Audits do not provide any warranty or guarantee regarding the absolute bug- free nature of the technology analyzed, nor do they provide any indication of the technology proprietors. Dappd.net Audits should not be used in any way to make decisions around investment or involvement with any particular project. These reports in no way provide investment advice, nor should be leveraged as investment advice of any sort.

Dappd.net Reports represent an extensive auditing process intending to help our customers increase the quality of their code while reducing the high level of risk presented by cryptographic tokens and blockchain technology. Blockchain technology and cryptographic assets present a high level of ongoing risk. Dappd's position is that each company and individual are responsible for their own due diligence and continuous security. Dappd is in no way claiming any guarantee of security or functionality of the technology we agree to analyze.

Project Summary

Farmerdoge is a multi dividend rewards token. Our contract allows us to switch our rewards token. Every month we provide the community with 5 BSC projects to read up on, we do our own research prior and provide a brief write up and links for the community to look into.

5 days later we provide a DAO for CROP holders to take part in a vote to choose 1 project to be the rewards token for the next month.

We are also a charitable project, with plans to create partnerships with with real world farmers and food suppliers to help with food waste and food distribution

Contracts Audited

- FarmerDoge Token
